SKILLS

Imaginative:

Developed the design of hypothetical homeless shelters to improve communities

Designed creatures, maps, and weapons for a video game project

Curious:

Joined SkillsUSA to discover its possibilities for my future career

Explored the PHP language to create a social media website

RELATED EXPERIENCE

SkillsUSA

Elected to be the SkillsUSA Idaho State Officer Secretary – 2024-2025

Ran multiple events for the organization with my State Officer team

Computer and Internet Core Classes

Programmed a video-sharing social media website- 2024

Renovated a restaurant website to function for mobile and computer with HTML - 2023

APA Game Design

Programmed video games in Unity – January 2023 – May 2023

Developed the groundwork for a large space-based horror shooter game

WORK EXPERIENCE

The Kharsov Project– *Part-time Unreal Programmer August 2023 – October 2023*

Developed systems for monsters, doors, and more

Gained valuable experience in the game design process and the Unreal Engine

HTML & CSS Tutoring– *Tutor October 2024 – December 2024*

Taught my student grid, CSS, and more important information for websites

Learned how to teach someone who's struggling in a subject I'm experienced in
